Profile Summary

- Passionate Front-End Developer with a solid foundation in **HTML**, **CSS**, and **JavaScript**, capable of building reusable and scalable UI components with clean, maintainable code.
- Familiar with modern JavaScript frameworks like **ReactJS**, and experienced in using version control systems like **Git** for efficient development and collaboration.
- Demonstrated ability to collaborate cross-functionally with designers, product managers, and backend engineers to build responsive, user-centric applications aligned with business objectives.
- Aspiring full-stack developer with strong fundamentals in JavaScript, React.js, and Node.js, and growing interest in distributed systems and scalable backend services.
- Fast learner with high adaptability, consistently exploring emerging technologies to enhance application performance and user experience.
- Strong problem-solving and troubleshooting skills, with a proactive approach to continuous learning and delivering projects within defined timelines.

Education

Sagar Institute of Research and Technology Excellence, Bhopal, MP

Expected Graduation:

Bachelor's of Technology in Computer Science

June 2025

- GPA: 7.56 (8th Semester)

Experience

AI Language Trainer

San Francisco, USA

Outlier

Sept 2024 - Feb 2025

- Worked on improving large language model behavior using prompt engineering strategies. Helped design and refine test cases that improved system understanding and response accuracy by 40%. Contributed to cross-functional tasks involving AI model training and evaluation..
- Coordinated with cross-functional teams to achieve project milestones across five diverse tasks, leading to a delivery rate increase of 40% while maintaining high standards for communication and collaboration.

Certifications

Interview Skill by TCS-iON

Sept 2022

Projects

QKart – A Responsive React-based E-commerce Web App

[Vercel-Link](#) 

- Built an end-to-end e-commerce application using **React.js**, with core features like user authentication, shopping cart, and secure checkout flow.
- Designed a responsive UI using **Material UI** and **React Hooks**, ensuring consistent experience across mobile and desktop devices.
- Implemented debounced product search, protected routes via **React Router**, and form validation with dynamic error handling for registration/login.
- Deployed on **vercel**, integrated REST APIs for product data and user actions.

Xcruise

[Vercel-Link](#) 

- Designed and developed a dynamic, responsive web interface using semantic HTML and modern CSS features.
- Utilized **CSS Flexbox and Grid** to build scalable, structured layouts adaptable to various screen sizes.
- Implemented interactive UI components using pure HTML and CSS, without relying on JavaScript.
- Applied reusable styling patterns and class-based selectors for clean, maintainable code.

Quiz App

[Project-Link](#) 

- Developed an interactive quiz web application using HTML, CSS, and JavaScript with dynamic question rendering.
- Utilized the Document Object Model (DOM) to manipulate and update quiz content in real-time based on user interaction.
- Implemented responsive layout designs using CSS Flexbox and Grid for seamless performance across all screen sizes.
- Ensured smooth user experience through input validation, score tracking.

Technologies

Languages: JavaScript

Tools: VS Code, Git, GitHub

Frameworks & Libraries: MERN Stack (MongoDB, Express.js, React.js, Node.js), Tailwind CSS, Bootstrap

Problem Solving: Solved 50+ problems on LeetCode, focusing on algorithms, data structures, and coding patterns

Hobbies

- I enjoy listening to and singing songs.
- I also like exploring new places.

Achievements

- Served as **College - Head** for one year, successfully leading the organization and execution of multiple high impact events.
- Actively contributed as a member of the CPHD Healthcare Foundation (NGO) for one year, facilitating impactful community service initiatives.
