## Professional Summary

---

Software Engineer with experience building AI-powered SaaS applications, multi-tenant platforms, and enterprise web products using React.js, FastAPI, Node.js, Python, and PostgreSQL. Experienced in delivering production-ready software across the complete development lifecycle from client requirement discussions and solution design to development, deployment, and production support. Strong interest in building scalable products, solving real-world engineering problems, and leveraging AI to improve developer and user workflows.

## Technical Skills

---

**Programming Languages:** JavaScript (ES6+), Python, TypeScript, Java (Basic)

**Frontend:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Vite

**Backend:** FastAPI, Node.js, Express.js, REST APIs, JWT Authentication, NextAuth.js, Role-Based Access Control (RBAC), Multi-Tenant Architecture

**Databases & ORM:** PostgreSQL, MySQL, MongoDB, Firebase, Prisma ORM, Supabase

**Cloud & DevOps:** Linux, Git, GitHub, Bitbucket, Nginx, Systemd, Alembic, CI/CD, Vercel, Render, DigitalOcean, Google Cloud Platform (GCP)

**AI & Integrations:** Gemini API, Prompt Engineering, GitHub Webhooks, Octokit, Twilio, Postmark

**Developer Tools:** Postman, VS Code, Chrome DevTools

## Professional Experience

---

### Software Engineer

*Remote, Noida, India*

*Cap Corporate AI Solution*

*Mar 2026 – Present*

- Working as a Software Engineer at **Cap Corporate AI Solution**, contributing to the development of production products for **Sonline LLC (USA)**, including BallotDA, PolicyAI, CFTrack, VoterSMS, and VoterAI.
- Built **VoterSMS**, a multi-tenant outreach platform supporting Email, SMS, and WhatsApp campaigns using React.js, FastAPI, PostgreSQL/MySQL, JWT Authentication, Twilio, and Postmark.
- Developed major features for BallotDA, including frontend modules, administrative workflows, backend functionality, and secure REST API integrations.
- Improved PolicyAI document processing workflows and resolved **100+** production issues across CFTrack and other products spanning frontend, backend, REST APIs, databases, and deployments.
- Collaborated directly with US-based clients to understand business requirements, evaluate technical solutions, and deliver production-ready features.
- Managed application deployments across development, UAT, and production environments on Linux virtual machines using Nginx, environment configuration, and release workflows.
- Worked across the complete software development lifecycle, including product research, architecture discussions, implementation, testing, deployment, and production support.

### Frontend Developer Intern

*Remote, Noida, India*

*Cap Corporate AI Solution*

*Aug 2025 – Feb 2026*

- Developed responsive user interfaces using React.js, JavaScript, HTML5, CSS3, and Tailwind CSS for production web applications.
- Integrated REST APIs, built reusable UI components, and collaborated with backend developers to deliver scalable application features.
- Participated in debugging, testing, code reviews, and deployment activities while gaining hands-on experience with Git, Bitbucket, Postman, and Agile development.

## AI Language Trainer

Outlier

Remote

Sep 2024 – Feb 2025

- Improved Large Language Model (LLM) responses through prompt engineering, structured evaluation, and response quality assessment.
- Collaborated on AI evaluation projects by designing test cases, validating model outputs, and improving response consistency.

## Selected Personal Projects

---

### GitHub Automation Bot

[GitHub Repository](#) 

- Built an AI-powered GitHub automation platform using **Next.js**, **TypeScript**, **Prisma**, **Supabase PostgreSQL**, and **Google Gemini** to automate issue processing and repository workflows.
- Implemented GitHub OAuth, GitHub App authentication, secure webhook verification (HMAC-SHA256), idempotent event processing, and tenant-level data isolation.
- Integrated Gemini API for AI-generated issue summaries, automated GitHub comments, Slack notifications, and deployed the application on Vercel.

### ExpenseTracker

[Live Demo](#) 

- Built a full-stack expense management platform using **Next.js**, **FastAPI**, **PostgreSQL**, **TypeScript**, and **Tailwind CSS**, featuring a SOLID-layered architecture for scalable backend and frontend development.
- Implemented AI-powered **Smart Add** functionality by combining bank/UPI SMS parsing, OCR (RapidOCR + PyMuPDF), and the **Gemini API** to automatically extract, categorize, and create expense transactions.
- Engineered secure authentication using HttpOnly JWT cookies, refresh tokens, bcrypt hashing, rate limiting, and deployed the application on **Vercel**, **Render**, and managed PostgreSQL.

### Finma Finance Platform

[Live Demo](#) 

- Developed a role-based financial management platform using **React 19**, **Node.js**, **Express.js**, **MongoDB**, and **Tailwind CSS**, supporting secure financial operations through enterprise-grade RBAC.
- Built interactive dashboards with real-time financial analytics, debounced search, multi-level filtering, Recharts visualizations, and comprehensive transaction management.
- Implemented production-grade security using JWT authentication, Joi validation, Helmet, Mongo-Sanitize, and middleware-based authorization, delivering a scalable and secure financial management system.

## Leadership & Achievements

---

- Solved **141+** algorithmic problems on LeetCode, strengthening problem-solving skills across arrays, strings, stacks, hash maps, recursion, and fundamental data structures.
- Served as **College Head** for one academic year, leading the planning and execution of large-scale technical and cultural events with participation from thousands of students while coordinating cross-functional student teams.
- Contributed to the **CPHD Healthcare Foundation** as an active volunteer, supporting community outreach and social welfare initiatives for one year.

## Education

---

### Sagar Institute of Research and Technology Excellence

Graduated: June 2025

Bachelor of Technology in Computer Science

- CGPA: **7.56/10**
